PERSONAL PROFILE

Software Developer with 4+ years of experience contributing to SaaS and enterprise web platforms in collaborative, product-driven environments. Strong background in JavaScript, React, REST APIs, SQL databases, and PHP/Laravel applications, with a focus on building accessible, maintainable, and well-tested solutions. Experienced in partnering with product and design teams, taking ownership of features, participating in code reviews, and continuously improving development processes. Curious, self-driven, and motivated by continuous learning and improving customer outcomes.

TECHNICAL SKILLS

- **Languages & Core:** HTML5, CSS3, JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React, Redux, Styled Components, Bootstrap
- **Backend & APIs:** Node.js, PHP (Laravel), REST APIs, GraphQL
- **Databases:** MongoDB, MySQL, Firebase
- **CMS & Content Platforms:** Cascade CMS, Slate, WordPress
- **Search, Analytics & Testing:** Algolia Search, GA4, WebPageTest, LambdaTest, Hotjar
- **DevOps:** Git, GitHub, SourceTree, CI/CD exposure, Azure-hosted environments, FileZilla
- **Design Tools:** Figma, Adobe XD, Photoshop
- **Collaboration & Delivery:** JIRA, Confluence, MS Teams, Asana, Slack

CORE COMPETENCIES

- Product & Design Collaboration
- Technical Ownership & Feature Delivery
- Accessibility & WCAG Compliance
- Code Reviews & Knowledge Sharing
- Backlog Refinement & Sprint Planning
- Technical Documentation & Communication

WORK EXPERIENCE

SOUTHERN ALBERTA INSTITUTE OF TECHNOLOGY (SAIT) OCT. 2022 – PRESENT

SOFTWARE DEVELOPER

- Collaborate with product owners, designers, and stakeholders to clarify requirements, assess feasibility, and deliver user-focused solutions for high-visibility platforms.
- Take ownership of frontend components and features, translating Figma designs into accessible, production-ready interfaces.
- Plan, build, and iterate on scalable UI solutions, contributing to long-term maintainability and consistency across sait.ca.
- Develop and integrate API-driven features, including YouTube API components and dynamic navigation modules.

- Conduct usability testing and accessibility audits using GA4, Hotjar, WebPageTest, and Siteimprove, contributing to a 90% reduction in accessibility issues.

EVA BY TURING ANALYTICS

NOV. 2021 – OCT. 2022

SOFTWARE DEVELOPER

- Contributed to a B2B SaaS dashboard, building and maintaining React-based features with full CRUD functionality.
- Integrated frontend components with backend APIs to support scalable data workflows.
- Worked in an Agile environment, participating in sprint planning, backlog refinement, testing, and retrospectives.
- Improved React component lifecycle management and performance, contributing to a 25% reduction in turnaround time.
- Participated in testing and peer code reviews to support code quality and reliable releases.

CANADIAN WOMEN FOR WOMEN IN AFGHANISTAN

SEP. 2021 – OCT. 2021

JUNIOR WEB DEVELOPER

- Debugged and enhanced a PHP/Laravel application, improving system stability and overall user experience.
- Collaborated with developers and DevOps to support deployments and resolve issues in an Agile environment.
- Contributed to iterative improvements while working within an existing codebase and established workflows.

WOMEN IN TECHNOLOGY, CALGARY, AB.

APR. 2021 – SEP. 2021

JUNIOR WEB DEVELOPER

- Led development of a Firebase-powered Learning Management System using JavaScript, HTML, and Bootstrap.
- Supported requirements gathering, UI design in Figma, and NoSQL database design to deliver a scalable solution.
- Collaborated within a small team to balance delivery, usability, and maintainability.

SHAREWORKS BY MORGAN STANLEY, CALGARY, AB.

DEC. 2018 – MAR. 2021

EQUITY PLAN SPECIALIST

- Supported enterprise clients with equity plan administration, compliance, and account management.
- Handled 500+ monthly equity transactions while maintaining a 95% client satisfaction rate.
- Developed strong customer empathy, attention to detail, and problem-solving skills in a regulated environment.
